design

We provide
our customers, designs that emphasize their
innovative identity, aesthetics, quality and
functionality together.

Almost all of us want to feel the breeze of the past in our lives. For this reason, designs that defy time are preferred especially in our living space. However, these classical lines in our bathrooms, together with our changing habits, are being reshaped with modernism.

Our priority is, designs that where classical lines come to life with modern touches. Human and environmental oriented designs reveal our different style. Designs that contribute to the protection of natural resources by using less energy, less raw materials and labor cost in washbasins, water and energy savings in toilets are among our primary goals.

İnovatif kimliğini öne çıkararak, estetik, kalite, dayanıklılık dengesini önemseyen, işlevselliği ve fonksiyonelliği bir arada sunan tasarımları müşterilerimize sunuyoruz. Hemen hepimiz geçmişin esintilerini hayatımızın belli alanlarında hissetmek istiyoruz. Bu nedenle yaşam alanımızda özellikle zamana meydan okuyan tasarımlar tercih ediliyor. Ancak günümüzde değişen alışkanlıklarımızla beraber banyolarımızdaki bu klasik çizgiler, modernizmle birlikte yeniden şekilleniyor.

Önceliğimiz, klasik çizgilerin modern dokunuşlarla hayat bulduğu tasarımlar. İnsan ve çevre odaklı tasarımlar bizim farklı tarzımızı ortaya koyuyor. Lavabolarda daha az enerji, daha az hammadde ve işçilik, klozetlerde su ve enerji tasarrufu sağlayarak doğal kaynakların korunmasına katkı sağlayan tasarımlar öncelikli hedeflerimiz arasında yer alıyor.
